Competitive Programming Profiles: Codeforces — LeetCode
AtCoder — CodeChef

Summary

Currently pursuing a B.Sc. in Computer Science and Engineering with strong problem-solving skills developed through competitive programming. Experienced in C, C++, and Java, with solid knowledge of data structures, algorithms, object-oriented programming, and database management systems. Actively seeking a software engineering internship to apply technical knowledge, gain industry exposure, and contribute to impactful software development.

Technical Skills

Programming Languages: C, C++, Java;

Databases: Oracle SQL Developer, SQL Server;

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Problem Solving, Time and Space Complexity Analysis;

Tools: Git, GitHub, Visual Studio Code

Projects

Offline Online Judge Simulator

Java Swing

Developed a desktop-based offline online judge system using Java Swing. The system supports source code submission in C, C++, and Java and performs automated compilation, execution, and verdict generation including AC, WA, TLE, and CE. The project involved process execution, file handling, and strict time limit enforcement to accurately simulate real competitive programming judge behavior.

Multi-Functional Converter Application

C (Structured Programming, Semester 2.1 Project)

Developed a console-based multi-functional converter using C, supporting currency, weight, temperature, number system, and unit conversions. The project emphasized modular function design, input validation, correctness, and efficient logic.

Competitive Programming Profile

Achievements and Ratings

- Codeforces Specialist
- CodeChef 3-Star
- AtCoder Maximum Rating: 771

Problem Solving Experience

Solved over 2500 problems across multiple online judges including Codeforces, AtCoder, CodeChef, LeetCode, SPOJ, Beecrowd, and VJudge. Demonstrated strong proficiency in arrays and strings, greedy algorithms, recursion and backtracking, graph algorithms, and dynamic programming.

Programming Contests and Competitions

Participated in ICPC Asia Dhaka Regional Preliminary contests in 2024 and 2025. Secured 37th position among 130+ teams in the AUST Inter University Programming Contest (IUPC) as a member of MBSTU_TEAM.3. Regular participant in over 200 online competitive programming contests across Codeforces, CodeChef, and AtCoder.

Education

B.Sc. in Computer Science and Engineering

Mawlana Bhashani Science and Technology University

CGPA: 3.25 / 4.00 (Completed 4 semesters)

Currently enrolled in 5th semester

Academic Courses Completed

Core Computer Science Courses: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Discrete Mathematics, Software Engineering

Programming and Software Development: Structured Programming (C), Advanced Programming (C++), Java Programming, Algorithm Design and Analysis

Mathematics and Foundations: Linear Algebra, Probability and Statistics, Numerical Methods

Experience

Programming Mentor

2025–Present

Conduct programming classes for junior students, focusing on C/C++ fundamentals, data structures basics, and algorithmic problem-solving techniques.

Soft Skills

Strong analytical and problem-solving ability, fast learner with a self-driven improvement mindset, effective team collaboration in competitive environments, and excellent time management with consistent performance.
